PPM (Polyurethane-Polyester Microfiber) is a new upholstery material that has many advanced features including breathability, super durability, easy cleaning and maintenance. It is suitable for all climates and with its high durability, it emulates the finest leathers. PPM's 1.5 mm thickness gives reliable strength that also resists tearing, sagging, crocking and shrinking. PPM is recommended for high traffic commercial environments.

Content: 100% Polyurethane

- Width: 55"/140 cm
- Weight: 460±5% (g/m²)
- Thickness: 1,5±5% (mm)
- Abrasion: 200,000 RUB
- Tensile Strength: min 450 (N)
- Tear Strength: min 50 (N)
- Flammability: California Technical Bulletin 117, Section E
- Maintenance: occasional dust cleaning with a clean white cloth is recommended. If needed, apply soapy water, followed by wiping down with clear water and drying.

Leather is a natural material which is permeable to air and moisture; it is supple and soft, warm, flexible and durable – its characteristic comfort properties have been appreciated since time immemorial. With its fine, slightly tinted lacquer finish, genuine leather is flameresistant, lightfast, oil-resistant and waterrepellent. It complies with today’s most stringent standards. The exquisite beauty and true naturalness of genuine leather is easy to clean and care for and it retains its original beauty for a very long time.

Content: 100% Genuine Leather

- Width: 55"/140 CM
- Light Fastness: Class 5
- Abrasion: 100,000 double rubs
- Flammability: California Technical Bulletin 117, Section E
- Crocking: Class 5 (AATCC-8)

· Maintenance: keep leather away from direct sunlight and avoid close proximity to heating sources. Regular dusting with a clean white cloth is recommended. If needed, apply soapy water, followed by wiping down with clear water and drying.

BICAST LEATHER

Bicast Leather is desired for its unique shine and easy care. It's a combination of natural leather hides processed and bonded to a man-made surface covering and then coated with a thick layer of polyurethane. This polyurethane layer is applied for a has a smooth, shiny finish and extra protection. In addition to the highly desirable “shiny” look, the coating helps prevent scratching, gives it a higher resistance to sunlight fading and is an excellent dir-repelling surface.

Content: Bicast leather

- Width: 54/55"
- Thickness: 0.8-1.00mm
- Abrasion: 90,000 rubs
- Maintenance: Regular dusting with a clean white cloth is recommended. If needed, apply soapy water, followed by wiping down with clear water and drying.
